

CONCERTED FALL DRIVE AGAINST THE WEEVIL

Governor Names Week December 11-16 Weevil Destruction Week.

With the announcement of the naming of December 11 to December 16 inclusive, as "Boll Weevil Destruction Week" by Governor Robertson, active work has been begun in practically every county in the cotton sections of the state. The movement having for its object the destruction of the greatest possible number of weevils during this week is being furthered by the Oklahoma Cotton Growers association, the State Board of Agriculture the Oklahoma A. & M. College, the State Chamber of Commerce and other organizations interested in the prosperity of Southern Oklahoma. All are working in complete harmony with the various local organizations in all cotton counties.

Briefly the plan for fall weevil destruction, as outlined by the State Board of Agriculture, is as follows: Kill cotton growth early to prevent new weevils breeding. The older weevils do not stand so good a chance of getting through the winter.

Plow under or destroy all cotton stalks, thus destroying many weevils hibernating in the stalks and preventing weevil from finding shelter in them.

Burn all dead grass, weeds and other refuse along fences, etc. Many weevil will be found hibernating such shelter.

Weevil infestation in the Spring lived through the winter. Destroy stalks from the weevils which have all shelter that will permit them to get through the winter alive.

Everyone in each community must clean up. Weevil will pass the winter clean up. If one field is left unclean in the stalks, trash, weeds or grass left in it and will infest the whole community in the spring. Everybody must work.

HAVE RADIO NIGHT FOR KANSANS DECEMBER 11

The University of Kansas will send out a special Radio program to Kansans people on December 11th from 8 to 10 p. m. J. R. Hanna of Durant is in charge of the arrangements for the evening. His plans for Kansans meet at Southeastern State Teachers College at 7:30 on Monday evening December 11th and organize a Kansas club an discuss some plans and then at 8 o'clock Mr. Laird will tune in with the Kansas City Star who will broadcast the program. All former Kansas people whether they have invited to attend and enjoy the programs.

An exchange says the newspapers make as much fuss over the marriage of a movie star as if they expected it to be a permanent affair.

ADDITIONAL FACULTY EMPLOYED FOR S. T. C.

Seven additional Teachers Will be Employed at Once at Southeastern

The crowded condition at the Normal will be relieved in the very near future because the Educational Governor of Oklahoma has found that this institution needs additional instructors. Governor Robertson granted a deficiency of \$8,666 with which to employ teachers with which to care for the over crowded condition.

The employment of these seven additional instructors will enable Southeastern to offer many more new courses which will meet the demands of the ever increasing attendance in this institution. There has been a demand for many classes but because of insufficient teaching force the subjects could not be offered. Many classes have been more than double what they should have been in enrollment. This condition will be greatly relieved.

If you can't be thankful that conditions are as good as they are, be thankful that they are no worse.

DURANT HIGH SCHOOL DEFEATS HUGO HIGHT

Durant's High School football team went to Hugo Thanksgiving Day and won a one-sided game from the Hugo High School team by the score of 25 to 0, finishing the season with a game worthy of the team that won the victory.

Detailed account of the game is not available for this issue, save that the locals outplayed a heavier team at every department of the game, scoring, apparently, when they took the notion.

High School people are exceedingly proud of the season's record of their team, which ranks well to the forefront of high school teams in this end of the State.

DURANT, OKLAHOMA

for Economical Transportation

Announcing 1923 SUPERIOR Models

Again Chevrolet Motor Company has emphasized its admitted leadership as producer of the World's Lowest Priced Quality Automobiles.

The 1923 SUPERIOR models—one of which is here illustrated—represent the most sensational values in modern, economical transportation ever established.

QUALITY has been still further improved by more artistic design and added equipment.

ECONOMY has been still further increased by engineering refinements and added facilities.

SERVICE is now offered on a flat rate basis by 10,000 dealers and service stations.

PRICES remain the same in spite of added equipment and more expensive construction, which have greatly increased value.

Some Distinctive Features

Streamline body design with high hood; vacuum feed and rear gasoline tank on all models; drum type head lamps with legal lenses. Curtains open with doors of open models. Closed models have plate glass Tarnstedt regulated windows, straight side cord tires, sun visor, windshield wiper and dash light. The Sedanette is equipped with auto trunk on rear.
